

Directions for use:

Use only as directed.

SaniChick is recommended for the control of *Aspergillus Fumigatus*, *Aspergillus Niger* and *Penicillium* in hatcheries, buildings, transport vehicles, and any other infected areas needing control. The exposure time is 5 minutes.

Application and Dosage:

It is to be used with the Sani-Fogger equipment, wipe on or spray on.

Application and dosage rate 1 milliliter to one Cubic Meter. For serious outbreak consult your agent.

For resistance management do not adjust the levels of dosage or of recommended frequency.

Warnings:

Handle with care. Poisonous when swallowed or absorbed through the skin. May irritate eyes and skin. Toxic to fish, other aquatic organisms and wild life. Store in cool place away from feed and food. Keep out of reach of uninformed persons and animals. Avoid contact with skin and eyes.

Precautions:

Avoid inhalation of spray mist or dust. In case of skin contact, wash thoroughly with soap and water. Wash contaminated clothing, do not eat drink or smoke during preparation or application of the spray mix or before washing hands and face. Prevent contaminating water sources.

Resistance Warning:

For resistance management use SaniChick with an integrated control program using chemical, cultural and biological into disease control. For specific information on resistance management contact the regulation of raucous product.

Although this recipe has been extensively tested under a large variety of conditions the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be effected by factors such as abnormal substances not indicated on the label and the occurrence of resistance of the diseases against the remedy concerned as well as by the method, time and accuracy of the application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment, or harm to man or animal or the lack of performance of the remedy concerned due to failure of the user to follow the label instructions or to the occurrence of conditions, which could not have been foreseen in terms of registration. Consult the supplier in the event of uncertainty.
