

WARNINGS

- Handle with care • Do not ingest or inhale mist • Avoid contact of the concentrate with skin and eyes • Keep out of reach of children, uninformed persons and animals • Not to be used for any purpose, contrary to the label directions • Do not contaminate streams, rivers or waterways with chemical or used containers • Store in cool place away from food and foodstuffs.

Although this remedy has been extensively tested the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be affected by factors such as abnormal climatic and storage conditions, quality of dilution water, incompatibility with other substances and time and accuracy of application. The registration holder furthermore does not accept responsibility for damage of crops, vegetation, the environment or harm to man or animal or lack of performance of the remedy concerned due to failure of the user to follow the label instructions or to the occurrence of conditions which could not have been foreseen during evaluation of the product. Consult the supplier in the event of any uncertainty.

PRECAUTIONS

- Wash with soap and water after use or skin contact.
- Wear gloves and face shield when handling concentrate.
- If swallowed drink large amounts of water.
- If fumes are inhaled move person to uncontaminated area.
- Do not eat, drink or smoke whilst handling product or before washing hands and face.
- Prevent contamination of food, feed, eating utensils, drinking water, rivers and dams.
- Destroy empty container and do not re-use for any other purpose.

GENERAL INFORMATION

- The stability and efficacy of **Bacatac** is not pH dependable.
- **Bacatac** has a good performance in the presence of organic matter.
- **Bacatac** is effective at high and low temperatures and is non-corrosive.
- **Bacatac** stays active as long as it is in solution (does not oxidize).
- Before disinfection, cleaning should be carried out. If required for greasy surfaces use a suitable detergent and rinse with clean water before disinfecting with **Bacatac**.

IMPORTANT

- **Bacatac** is not compatible with concentrated anionic compounds.
- **Bacatac** is a disinfectant and when applied it reduces the overall pathogenic microbial load on the surface on contact without leaving any residual activity.

Reg. No Act 29 GNR529/27555/070/210

BACATAC

**A BROAD SPECTRUM CONCENTRATED
DISINFECTANT / SANITIZER ACTIVE
AGAINST A WIDE RANGE OF
PATHOGENIC MICRO-ORGANISMS;
BACTERIA.**

ACTIVE INGREDIENT:

Didecyl Dimethyl Ammonium Chloride.....120g/L
(Patented Product)

Manufactured by ICA International Chemicals (Pty) Ltd (Reg No 2001/013319/07)
P.O. Box 2312 • Stellenbosch • 7601

Distributed by Corporate Wine Services
